

DNA Kingston Training

HLT41007 Certificate IV in Health Care (Ambulance) International Students

Introduction

DNA Kingston Training has been a registered training provider in Australia since 1999. An award winner and finalist in Local Training and International Training.

This course is an Australian Nationally Registered qualification. In Western Australia, these courses are designed for people who have a specific interest in being part of the non-emergency patient transport industry (in some Australian states the Diploma is also recognized as the minimal qualification for emergency care). Generally, there are two broad groups of operators of non-emergency patient transport. One group provides patient transport services under contract to the Metropolitan Ambulance Service (MAS). The other group provides transport services directly to health care networks, individual hospitals or through other means.

You will find ambulance and pre-hospital care a diverse and flexible career that is enriching and rewarding. The courses we offer are at the entry level in the non-emergency sector, which is growing as the population is aging. These qualifications can also be a good lead into the emergency sector for those with the drive and ability. Many people seek employment in paramedic services and emergency pre-hospital care. Graduates of our programs are well positioned to gain positions in the non-emergency transport sector and paramedic services.

Course content

Divided into six clusters of study:

- Basic Clinical Care
- Rescue
- Workplace Relations
- WHS Responsibilities
- Managing scene and resources
- Transport

This is a professional qualification to enhance careers and create new careers for successful continued employment.

Other aspects of training

- Rolling intakes throughout the year
- Work experience / employment assistance arranged
- Real, hands on practical training
- Guest lectures & excursions
- World class, well equipped colleges
- Qualified, highly experienced trainers and assessors with years of experience in all disciplines

Entrance requirements

No entrance requirements are required to enter this programme apart from English levels

IELTS 5.5 or TOEFL 5.3 or ISLPR 2+, Upper Intermediate ESL

English assessment available

English enhancement - support is available in our college to assist entrance levels and to further increase IELTS scores, we also have links with external English Colleges.

Application pre-requisites for these programs are:

- Provide medical evidence that you have physical capacity and flexibility to freely walk, bend and twist, and perform ambulance duties
- Possess basic literacy and numeracy skills
- Provide a copy of a current Australian National Police Check
- You must hold a current unrestricted/non probationary drivers license (provide evidence) and be able to drive a manual vehicle
- Hold or enrol in our course to hold a current Australian Basic or equivalent First Aid certificate.

Additional advanced driving skills enhancement sessions will be conducted by specialist driving instructors throughout the course.

Program Duration

- Full-time - 20 hours minimum a week
- International students attend 52 weeks, including term breaks, 3 days a week

Fees

Current fees are available on the web site or by contacting the college direct. Students will require safety equipment. The college arranges safety equipment for all the students on commencement - additional costs are incurred for safety equipment and resources.

Location

Metro

Belmont, 15 minutes from Perth CBD - 37 Hargreaves Street, Belmont

Licensing, Legislative, Regulatory or Certification Considerations

While no licensing, legislative, regulatory or certification requirements apply holistically to this qualification at the time of publication, relevant national, state and territory legislation, regulations and codes of practice do impact upon this qualification.
