Perth

Perth City is situated between the Darling Ranges and the Indian Ocean, and along the banks of the Swan River, 12 km from the ocean. The river is named after the famous black swans which can be found along the river. The city is bound by the river to the east and south. To the west of the city is Kings Park, which has over 400 hectares of natural Australian bush overlooking the city center and the Swan River. The view from Kings Park is quite unique and is a must for any visitor to Perth.

The Swan River weaves its way through the metropolitan area to the Port of Fremantle, which has many beautiful houses, restaurants and recreational areas along its banks.

Climate

Perth has a mixture of Californian and Mediterranean climates, with mild winters and hot dry summers. Perth is the sunniest capital in Australia with an average of eight hours sunshine a day. The skies above Perth are often bright blue without a cloud in the sky. Combine the warm weather and beautiful beaches and its easy to see why so many people enjoy the outdoor lifestyle of Western Australia. November is Spring in Western Australia, with average temperatures for Perth, ranging from 10° - 30°.

Message from Director:

On behalf of Dental Nursing Australia it is my pleasure to invite you to attend the Inaugural Western Australian Dental Auxillary Symposium 2007 to be held in Perth at the Duxton Hotel.

This is to be an annual highlight of the Dental Auxillary Education calendar in W.A.

The Symposium is designed to cross new frontiers and empower your own careers in the dental profession. We will explore new areas of Dentistry, share approaches and success, with an opportunity to network in this unique environment. We have pulled together a range of fantastic speakers from world class Dental Educators to share their own experiences with you. Delegates will have ample time to visit the trade displays and engage in discussion.

Key feature of this symposium is to inspire support and generate new ideas you can take back to your practices, while enhancing your careers.

I look forward to warmly welcoming you to the symposium for a stunning informative day.

Susan Lawton
